BUSINESS GOALS

The philosophy of D Revolution is to allow companies to become self sufficient.

We can help you achieve this goal through scheduled support contracts, casual support for when things go wrong, staff training and getting the right advice on current technology and directions for the future.

Small companies can benefit by outsourcing their IT needs, larger companies can utilise scheduled support to free their support staff from mundane tasks and focus on larger projects.

SUPPORT

There are 2 types of support offered, un-scheduled and pre-paid bulk support credits
